Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-15 and 25-54, drawn to computer-implemented method, a computer-readable medium, classified in class 705, subclass 10.
 - II. Claims 16-24, drawn to a graphical user interface, classified in class 345, subclass 811.
 - III. Claim 55, drawn to a method comprising, classified in class 379, subclass 265.01.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as a second area for displaying information that relates to a survey. See MPEP § 806.05(d).

Inventions I and II I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention III has separate utility such as distributing and receiving being performed via an automated call distribution system. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Marc Lopieti on February 4, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3623

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
